

TROYA

PRECISION STEEL FURNITURE

***Raphael Brazinsky** President,
TROYA Group of Companies*

Founded over 15 years ago, TROYA has been on a steady upward trajectory since 2010, establishing itself as a distinguished leader that unites commercial success with social vitality.

Today, we are Central Asia's leading technology innovator in school and office furniture, storage, and integrated large-scale project solutions.

We are privileged to operate out of Kazakhstan — a safe, technologically progressive nation and the 9th largest country in the world, rivaling the entirety of Western Europe in size. As the key commercial hub between Europe and Asia, Kazakhstan offers unmatched strategic advantage.

By combining our homeland's potential with TROYA's vast resources, we are eager to extend exceptional opportunities for your business development.

TWO DOOR CUPBOARDS

Two-door A4 size storage cupboards are supplied flat-packed, since they can be quickly put together. These cupboards are available in several heights that align with the standard dimensions of key office furniture — a desk, desk with a monitor, a typical office partition, and an office storage unit. The cupboard fitting options include a fixed shelf and a hanging file shelf.

• Supplied flat packed

- 5 storage levels (4 shelves included)
- Maximum load per shelf – 60 kg

TWO DOOR CUPBOARDS

Classical Asian-style rotation handle cupboards are built to make the most of available storage while taking up minimal office space. Since a wide variety of office supplies and documents need to be kept behind closed doors, these cupboards satisfy most shelf-based filing needs and offer a space-saving solution through under-shelf lateral filing.

- Central key lock

PLAN FILES TRA1 AND TRA

Large-format filing cabinet is an ideal solution for storing oversized documents and binders. A key feature is the option to install an intermediate section of 5 drawers, increasing the total capacity of the module from 15 to 20 drawers without changing the overall footprint. Heavy-duty telescopic slides with an anti-tip mechanism ensure safe and reliable operation.

- File drawers are mounted on telescopic rails to ensure free and smooth running of the drawers
- Stationery drawers have roller guides so they do not provide full extension
- Anti-tilt mechanism that prevents more than one drawer from being pulled out at the same time
- Pedestals are great for storing A4 or foolscap suspension files or level arch files
- Pedestals can be mounted on leveling feet or wheels
- Options: plastic trays and metal box for stationery and other items.
- Supplied assembled

BOLTLESS MEDIUM DUTY RACK

SB series boltless racks are designed to store heavy and bulky goods. They are used in storage rooms, trading floors, production workshops, in car services, workshops and personal garage. The design of the rack is boltless so it allows you to assemble the rack using a minimum number of tools and save time. The beam attaches to the frame with hooks that stamped in the rack.

• Supplied flat packed

Rack

The beam attaches to the shelving with hooks. Hooks are stamped in the shelving so the installation of beams takes minimal time.
